OFFICE OF THE DEAN

September 30, 2014

Dear Alumni, Partners, Supporters, and Friends:

The 2013-2014 academic year has been exceedingly eventful and fruitful for the College of Science and Technology of Texas Southern University. As Dean of the College, I would like to share our accomplishments with you and invite you to join us at our ***Open House -- Alumni and Partnership Luncheon*** from 10:00 a.m. through 2:00 p.m. on Thursday, November 6, 2014. We will begin a little early this year because we have "Open Lab Day" to showcase laboratory facilities in the College. We have prepared a short program that will highlight some of our activities, present our students and their research, our outreach efforts, and announce major programmatic changes.

In this ***Open House***, we will also announce the recipients of our Distinguished Alumni Awards selected by each department in the College.

The College of Science and Technology is addressing the shortfall in the scientific workforce by encouraging our students to pursue the study of fields that are in demand in business, industry, government, and higher education. This shortfall has become a critical national need with the potential of affecting the economy and national security. We invite you to join us in assisting to create leaders of the future in the scientific and technological professions.

We look forward to welcoming your participation, and benefiting from your insights on November 6, 2014.

Please R.S.V.P. to Ms. Charlotte Whaley, our College Business Administrator, at 713-313-7009 or whaley_cs@tsu.edu.

Sincerely,

Lei Yu, Ph.D., P.E.

Dean

College of Science and Technology
