

MONTHLY RESEARCH SEMINAR

Overview of Air Force Research Laboratory in Information Directorate

Timothy S. Kroecker, PhD.

Senior Operations Research Analyst / Enterprise Learning Officer
Air Force Research Laboratory - Information Directorate

15:00 – 16:30, Thursday, September 15, 2016
Room 148 at Science Building
Texas Southern University

Abstract

The topic of the presentation will be an overview of the Air Force Research Lab - Information Directorate and the technical areas we focus on including command, control, communications, computers, intelligence, surveillance and reconnaissance. There will be a discussion about the careers and roles available within the lab. In addition, the speaker will introduce the audience to the Information Institute which is a consortium of universities performing research in areas of information technology of interest to the Information Directorate.

Biography

As an Industrial/Organizational psychologist and a recruiter for the Information Directorate of the Air Force Research Laboratories, Dr. Kroecker works with senior leadership to implement their talent management vision across the Directorate. He helps the organization recruit and select scientists, engineers, administrators, and managers. He researches in a number of areas including understanding targeting operational procedures, ethical decision-making, and data analysis.
